PureGreen24 receives seal of approval from Organic Baby University

NEW YORK, NY, February 26, 2013 Pure Green, LLC, distributors of PureGreen24

“We are excited to receive the seal of approval from Organic Bay University.”

Jennifer Hankey, President of Organic Baby University & Whole Pregnancy, stated: ” we highly recommend PureGreen 24 for use in schools for non-toxic virus and bacteria control! It is important, especially during cold and flu season, to have a product to help control the spread of the viruses without exposing children to toxic chemicals. Nearly all antibacterials on the market are loaded with chemicals linked to a variety of common health problems in children such as asthma and cancer. We love being able to protect them from viruses without impacting their health in other negative ways!”

“Parents are always looking for ways to protect their children from the flu and other viruses and bacteria during the cold and flu season. Instead of toxic bleach, ammonia and other chemicals that are damaging to your child's health, we recommend PureGreen 24 for "touch points" to help prevent the spread of diseases. PureGreen 24 is one of our *FAVORITE PRODUCTS OF 2013* !! Totally safe and truly non-toxic! “ stated Ms.Hankey.

“We are proud to be recognized by Baby Organic University” stated Brigitte Ferrada-Stetson, co-founder Pure Green LLC. With the spread of the 2013 Flu and Norovirus outbreaks increasing, PureGreen24 is the perfect product to disinfect home and school environments. PureGreen24 is a great bleach alternative, contains no toxic chemicals, is odorless and non-staining while providing 24hr residual protection. PureGreen24 is safe to use around children and pets.

About Organic Bay University & Whole Pregnancy

Jennifer Hankey, M.E. is president of three organizations dedicated to educating about the dangers of toxins in our environment. Her area of expertise is women trying to conceive, pregnant women and moms . Organic Baby University www.organicbabyuniversity.com is a site dedicated to teaching pregnant women and moms how and why to avoid toxic chemicals in everyday products with fun videos, a strong Facebook community and educational books. Whole Pregnancy www.wholepregnancy.org is the only natural pregnancy supersite dedicated to educating women trying to conceive, pregnant women and new moms about natural and alternative health, birth, conception, and parenting options. Healthy Green Schools www.healthygreeschools.com is a consulting service that assists schools in removing toxic chemicals from our schools.
