**CERTIFICATE OF REGISTRATION OF PESTICIDES**

Authority: Arizona Revised Statutes 3-351

The above registrant is authorized to manufacture, deliver or sell in Arizona the products listed below. Registration is not an endorsement or approval by the Department of any product or any claim made for it. No reference may be made to registration in labeling or advertisements. In order to protect the public, the associate director may, after a hearing, cancel the registration of a pesticide. The composition of each product and the label used on it must be the same as those submitted by the registrant.

# PUREGREEN24

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PureGreen24 is a colorless, odorless broad spectrum antimicrobial disinfectant and deodorizer. Proven to kill bacteria, fungus and viruses\* in:

- Homes
- Airplanes
- Restaurants
- Exercise Facilities
- Ships
- Offices
- Schools
- Hotels
- Hospitals/ Medical Clinics
- Veterinary Clinics
- Day Care Facilities
- Other Public Transport Vehicles

PureGreen24 has been formulated to disinfect hard, non-porous environmental surfaces (painted, glazed tile, plastic, metal, glass, glazed porcelain) and objects including bathroom and kitchen counters, sinks, appliances, walls, floors, cabinets, tubs, showers, telephones, examination tables, play tables, children's toys, diaper changing tables, jungle gyms, strollers, cribs, playpens.

**FAST, EASY, EFFECTIVE**

## GENERAL INFORMATION

**PureGreen24** successfully killed the following organisms under AOAC protocols (in order to ensure that all organisms listed are killed, you must use the contact times as directed in the Application Instructions):

### Fungicidal Activity:

**PureGreen24** is effective against *Trichophyton mentagrophytes*, the Athlete's foot fungus. Use in locker rooms, dressing rooms, shower and bath areas, and exercise facilities.

**Deodorizers: PureGreen24** reduces annoying odors caused by bacteria. Use to control odors in hospitals, nursing homes, public restrooms, animal kennels and barn stalls. In private homes, use in the kitchen, bathroom, sink rooms and basements.

### STORAGE AND DISPOSAL

**Storage:** Do not contaminate water, food or feed by storage or disposal.

**Disposal:** Do not reuse container. Rinse thoroughly before discarding in trash or recycling.

**IN CASE OF EMERGENCY:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact CHEMTREC 1-800-424-9300 for emergency medical treatment information.

## APPLICATION INSTRUCTIONS

Pre-clean surfaces prior to using this product.

**General Disinfection:** For general disinfection and control of the bacteria *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, *Listeria monocytogenes*, Vancomycin Resistant *Enterococcus faecium* (VRE), Methicillin Resistant *Staphylococcus aureus* (MRSA) and *Escherichia coli* 0157:H7 the surface must be completely wet with **PureGreen24** for 2 minutes. The surface may then be wiped dry with a clean towel. When used as directed, **PureGreen24** provides protection from *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella choleraesuis* up to 24 hours after initial application.

**Fungus Control:** For effective control of the fungus *Trichophyton mentagrophytes*, the surface must be completely wet with **PureGreen24** for 10 minutes. The surface may then be wiped dry with a clean towel. Re-apply when cleaning or when new growth appears.

**\*Viral Control:** To Kill Herpes Simplex Type 1 F(1) Strain, Influenza A Virus Hong Kong strain, Rhinovirus R37 Strain 151-1 and Polio Virus Type 2 Lansing Strain the surface must be completely wet with **PureGreen24** for 10 minutes. The surface may then be wiped dry with a clean towel. **Kills HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV): Instructions for Cleaning and Decontamination Against HIV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids: Personal Protection:** When handling items soiled with blood or body fluids, use appropriate barrier protection such as latex gloves, gowns, masks or eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Apply **PureGreen24** to area to be treated. The surface must be completely wet with **PureGreen24** for 30 seconds. The surface may then be wiped dry with a clean towel. This contact time will not control all organisms listed on this label. Refer to application instructions for other organisms. **Disposal of Infectious Materials:** Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not normally penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Organism	Contact Time
† <i>Pseudomonas aeruginosa</i>	30 seconds
† <i>Staphylococcus aureus</i>	30 seconds
† <i>Salmonella choleraesuis</i>	30 seconds
† <i>Listeria monocytogenes</i>	30 seconds
Vancomycin resistant <i>Enterococcus faecium</i>	2 minutes
Methicillin resistant <i>Staphylococcus aureus</i>	2 minutes
<i>Escherichia coli</i> 0157:H7	2 minutes
<i>Trichophyton mentagrophytes</i> (Athlete's Foot Fungus)	10 minutes
† HIV type 1 - Strain HTLV IIIB	30 seconds
* Herpes Simplex Type 1 VR-733 F(1) Strain	1 minute
* Influenza A VR-544, Hong Kong strain	10 minutes
* Rhinovirus R37: VR-1147, Strain 151-1	10 minutes
* Polio Type 2, VR-1002, Lansing Strain	10 minutes

Dear Registrant.

The 2008 application to register your company's pesticide products for distribution and sale in Louisiana has been received and reviewed. The Louisiana Department of Agriculture and Forestry has assigned 00107616 as your LDAF Identification (ID) Number. This number should be referenced in all correspondence from your company to this Department.

Registration Type Legend - These terms define your product(s) status:

- INITIAL - A product registration for sale and distribution in the current year entered as first time registration(s).
RENEWAL - A product registration has been renewed for sale and distribution for the current registration year.
DIS 1ST YR (Discontinued, First Year) - A pesticide product has been declared by the registrant as "no longer being produced or shipped" and is registered for the current registration year - DIS 1st Yr of the two-year discontinuance period, which should allow for this pesticide product to move through the "Channels of Trade".
DIS 2ND YR (Discontinued, Second Year) - A pesticide product has been declared by the registrant as "no longer being produced or shipped" and is registered for the current registration year - DIS 2nd YR of the two-year discontinuance period, which should allow for this pesticide product to move through the "Channels of Trade".
LTR DIS (Discontinued By Letter) - During the renewal process, the registrant has submitted a letter stating in writing the specified pesticide product is "no longer produced or shipped" and is no longer in Louisiana's "Channels of Trade". Therefore, this Department requires no further registration of this pesticide product.
RETIRED - The product registration has been declared by the registrant as having completed the two-year discontinuance period with this Department, which should allow for this pesticide product to have moved through the "Channels of Trade," and therefore, registration is no longer required.

Registration Status Report - The status of your pesticide product(s) is reported in the following manner:

- Registered Products
Discontinued / Retired Products
Unregistered Products and Discrepancies

Products with Discrepancies are Not Registered until the Discrepancy is Corrected.

Corrections, such as, pdf's of labels or MSDS, etc., should be mailed or emailed to us. Returning a copy of the list of discrepancies, with the corrections attached, will expedite the process of getting these products registered.

One or more status reports are enclosed with this letter. Please review the attached status reports for accuracy. If you find any errors, please notify my office immediately. If you have any questions, or if our office can be of further assistance, please do not hesitate to contact me.

Sincerely,
Harry Schexnayder, Program Coordinator
Pesticides and Environmental Programs

**CERTIFICATE OF PESTICIDE REGISTRATION**

The products listed below are authorized for distribution, sale, offer for sale or use in New York State as of the date of issue. Any product listed as restricted requires a Commercial Permit from this Department for distribution, offer for sale, or sale and may be sold only to other Commercial Permit holders or certified applicators. Registration is not an endorsement or approval by the Department of any product or any claim made for it. No reference may be made to the New York State Department of Environmental Conservation in labeling or advertisements. Registration may be cancelled pursuant to applicable law and rules and regulations. The composition of each product and label used on it must be the same as those submitted by the registrant. Only labels approved by the Commissioner, or his designee, may represent a pesticide.

## GENERAL INFORMATION

**PureGreen24** successfully killed the following organisms under AOAC protocols (in order to ensure that all organisms listed are killed, you must use the contact times as directed in the Application Instructions):

### Fungicidal Activity:

**PureGreen24** is effective against *Trichophyton mentagrophytes*, the Athlete's foot fungus, Use in locker rooms, dressing rooms, shower and bath areas, and exercise facilities.

**Deodorizes: PureGreen24** reduces annoying odors caused by bacteria. Use to control odors in hospitals, nursing homes, public restrooms, animal kennels and barn stalls. In private homes, use in the kitchen, bathroom, sink rooms and basements.

### STORAGE AND DISPOSAL

**Storage:** Do not contaminate water, food or feed by storage or disposal.  
**Disposal:** Do not reuse container. Rinse thoroughly before discarding in trash or recycling.

**IN CASE OF EMERGENCY:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact CHEMTREC 1-800-424-9300 for emergency medical treatment information.

## APPLICATION INSTRUCTIONS

Pre-clean surfaces prior to using this product.

**General Disinfection:** For general disinfection and control of the bacteria *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, *Listeria monocytogenes*, Vancomycin Resistant *Enterococcus faecium* (VRE), Methicillin Resistant *Staphylococcus aureus* (MRSA) and *Escherichia coli* 0157:H7 the surface must be completely wet with **PureGreen24** for 2 minutes. The surface may then be wiped dry with a clean towel. When used as directed, **PureGreen24** provides protection from *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella choleraesuis* up to 24 hours after initial application.

**Fungus Control:** For effective control of the fungus *Trichophyton mentagrophytes*, the surface must be completely wet with **PureGreen24** for 10 minutes. The surface may then be wiped dry with a clean towel. Re-apply when cleaning or when new growth appears.

**Viral Control:** To kill Herpes Simplex Type 1 (F1) Strain, Influenza A Virus Hong Kong strain, Rhinovirus R37 Strain 151-1 and Polio Virus Type 2 Lansing Strain the surface must be completely wet with **PureGreen24** for 10 minutes. The surface may then be wiped dry with a clean towel. **Kills HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids** in health care settings (or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV); **Instructions for Cleaning and Decontamination Against HIV** on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids; **Personal Protection:** When handling items soiled with blood or body fluids, use appropriate barrier protection such as latex gloves, gowns, masks or eye coverings.

**Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Apply **PureGreen24** to area to be treated. The surface must be completely wet with **PureGreen24** for 30 seconds. The surface may then be wiped dry with a clean towel. This contact time will not control all organisms listed on this label. Refer to application instructions for other organisms.

**Disposal of Infectious Materials:** Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal. This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not normally penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Organism	Contact Time
† <i>Pseudomonas aeruginosa</i>	30 seconds
† <i>Staphylococcus aureus</i>	30 seconds
† <i>Salmonella choleraesuis</i>	30 seconds
† <i>Listeria monocytogenes</i>	30 seconds
Vancomycin resistant <i>Enterococcus faecium</i>	2 minutes
Methicillin resistant <i>Staphylococcus aureus</i>	2 minutes
<i>Escherichia coli</i> 0157:H7	2 minutes
<i>Trichophyton mentagrophytes</i> (Athlete's Foot Fungus)	10 minutes
†HIV type 1 - Strain HTLV IIIB	30 seconds
*Herpes Simplex Type 1 VR-733 F(1) Strain	1 minute
*Influenza A VR-544, Hong Kong strain	10 minutes
*Rhinovirus R37 VR-1147, Strain 151-1	10 minutes
*Polio Type 2, VR-1002, Lansing Strain	10 minutes

TDA Client No. 00371357

Dear STEPHANIE HACKER:

We are pleased to inform you that your product registration(s) for the product(s) on the attached list have been issued and your certificate(s) enclosed. Your registration(s) are/is effective as of the issue date shown on the list for each product. You are authorized to distribute these products in Texas only until midnight on the expiration date shown on the list for each product, unless you renew the registration prior to that date. Please note that you are required to notify the Texas Department of Agriculture within 30 days of any change in the information you provided during application for or renewal of this registration.

A client number, referenced above, has been printed on your license. This number will be used to provide you with more efficient service by acting as a cross-reference to all TDA licenses you may obtain, as well as any other contacts you may have with TDA. By referencing your client number, both you (through Internet access) and authorized TDA personnel will be able to review and process most or all of your licensing, license renewal and contact information from a single access point.

If you have any questions regarding your product registration or believe that the information concerning your product registration is incorrect in some respect, please contact our Austin headquarters toll free at (877) LIC-AGRI (877-542-2474), or visit our web site at [www.agr.state.tx.us](http://www.agr.state.tx.us). For the hearing impaired, you may call Relay Texas (800) 735-2988 (voice) or (800) 735-2989 (TDD) or visit our web site.

STEPHANIE HACKER, REGULATORY AFFAIRS MGR  
 PUREGREEN LLC C/O KELLY REGISTRATION SYS (P-2260)

Dear Registrant:

Attached is a copy of your pesticide product certificate of registration for 2008. Please review the certificate for accuracy. If there are any problems (typographical errors in the contact information and/or product names, incorrect EPA numbers, incorrect discontinuance status, etc.) please fill out the form below within 14 days of the date of this letter and fax it to (802) 828-1410 or return it via mail to the address above to the attention of the **Agricultural Resource Management & Environmental Stewardship Division**.

**IMPORTANT:** Remember that you must include a copy of your label, MSDS and the fee of \$92.00 per product on all future applications. You must submit paper labels & MSDS for all new pesticide product registrations. If you make a change to the product name, EPA registration number or company name on the label, you must register the product as new. You can obtain a pesticide product registration application by visiting our website at [www.vermontagriculture.com](http://www.vermontagriculture.com). Please submit revised labels for any changes that you make to your labels throughout the year. We will accept revised labels by e-mail to [toni@agr.state.vt.us](mailto:toni@agr.state.vt.us). Last but not least, please change the name of your contact at our agency to Toni M. Lawrence for all future registrations, correspondence and revised labels. Please give us a call at (802) 828-2431 if you have any questions.

is authorized to manufacture, deliver or sell in Wyoming the products listed below. Registration is not an endorsement or approval by the Department of Agriculture of any product or any claim made for it. No reference may be made to registration in labeling or advertisements. Registration may be canceled after hearing at any time for just cause. The composition of each product and the label used on it must be the same as those submitted by the registrant. A certificate of registration cannot be transferred if there is a change in business ownership but a new application and fee are necessary.
