

PureGreen24 Is now EPA Registered to kill the COVID-19 virus in ONLY 30 seconds

New York, NY October 15, 2021

Pure Green LLC, distributor of PureGreen24, Disinfectant and Deodorizer, provides an update on its effectiveness against the COVID-19 virus.

PureGreen24 has been tested with EPA protocols and now has the approved claim that PureGreen24 kills the COVID-19 virus to a disinfectant level in ONLY 30 seconds!

The only other product on the market that can make this 30 second kill claim is extremely toxic and requires the use of a respirator to apply.

PureGreen24 is also effective against the Delta variant of the Corona Virus and is expected to inactivate all variants of CV-19.

The EPA has stated that the Agency expects all products on the "List N", which PureGreen24 is on to kill all strains of SARS-CoV-2. Genetic changes to the virus do not impact the efficacy of disinfectants.

About Pure Green, LLC

Pure Green, LLC is the distributor of PureGreen24 disinfectant and deodorizer. PureGreen24 is registered by the Federal EPA; your only choice for a proven “green” disinfectant. Pure Green, LLC is dedicated to reducing health risks caused by exposure to viruses, fungi and bacteria without endangering humans and animals during the disinfecting process. PureGreen24 kills Human Coronavirus CV-19, Norovirus, MRSA, VRE and Staph, yet also kills common household germs and is safe for use in the presence of children and animals. PureGreen24 is based on a patented Silver Ion technology that is a true “green” disinfectant with unprecedented 24-hour effectiveness. PureGreen24 is safe enough to use on children’s toys without rinse and is odorless.
